

OBSERVATION RECORD

OBJECT

Date: 7/25/03
 Time Started: 10:01 PM CDT
 Time Finished: 10:22 PM CDT
 Transparency: 3.5
 Seeing: 4.0

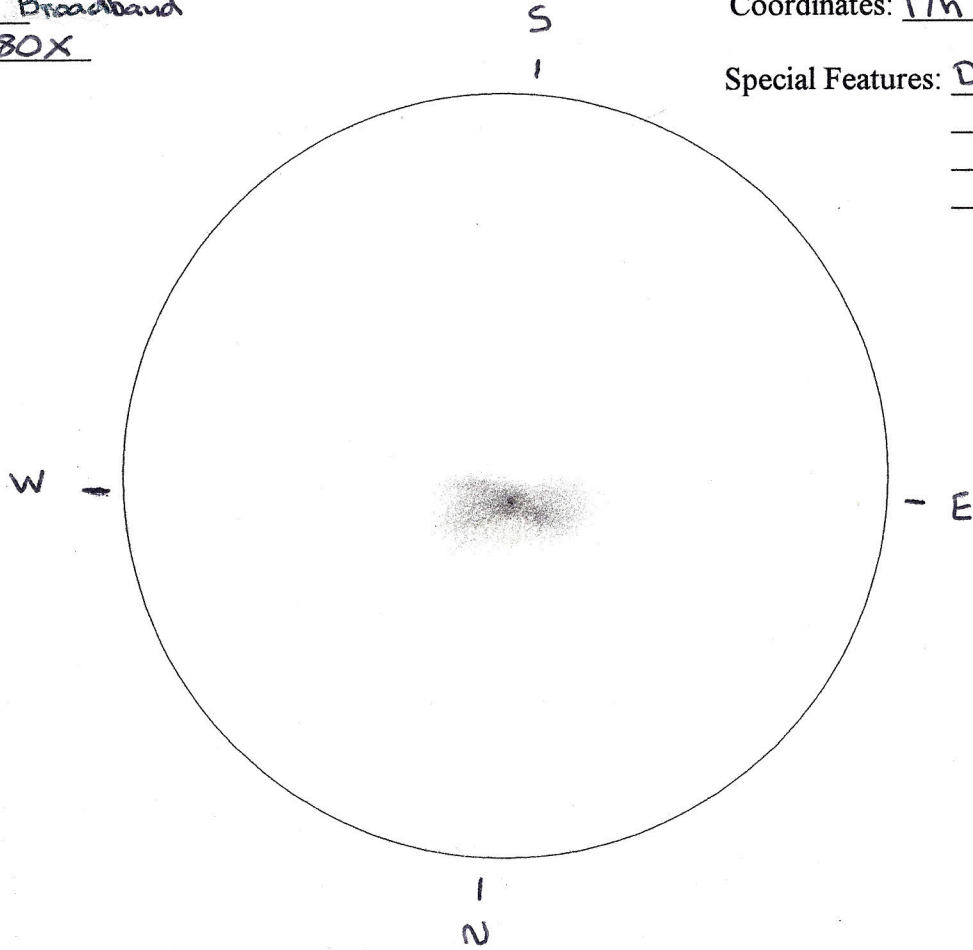

Common Name: Bug or Bipolar Nebula
 C#: 69
 NGC #: 6302

Telescope: 12.5" Dob
 Eyepiece: 26mm plossl & 3x Barlow
 Filter: Skyglow Broadband
 Magnification: 180x

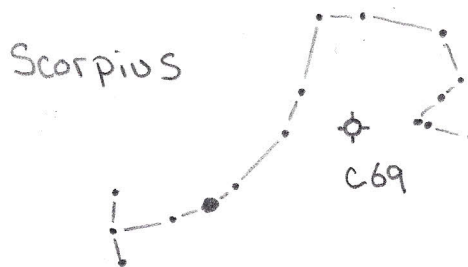

Type: PN
 Magnitude: 12.8
 Size: 2.0' x 1.0'

Coordinates: 17h 13m 44.1s -31° 08' 16"

Special Features: Dist.: ~5000 H. yrs

Locating Sketch:

Description and Field Notes:

Bright but small. Core is starlike. Almost like a spiral galaxy slightly tilted from edge-on. Bipolar shape evident.
